Subject: Monopoly(Money) + Master = Bill Gates

Bill Gates must have paid a person or people with the Justice Department and agreeing states 6 digit or 7 digit dollars under the table for the government to accept a soft soft one sided settlement the totally works in favor of Microsoft.

If you tell anyone that is making money and controlling a worldwide business, o.k., here is the deal if you tell your competitors your business secrets for x amount of years that will settle the case...Do you really think he will jeopardize his monopoly empire, come on... Bill Gates is probably going to release 1980's and 1990's secrets only to satisfy the courts. While, current 2000 and beyond secrets remain monopoly secrets.

I thought our country was built on fair equal rights and equal business options to all; is Bill Gates and Microsoft an exception...

The government made Bell and AT&T split which opened up a fair market for other telephone communication companies. The government should make Microsoft split and allow other computer businesses to produce a product line of other type windows for fair market.
